ADVISORY TO MEMBERS ON TSAWWASSEN LANDS:

Due to scheduling conflicts with the youth snowboarding team, home delivery of the Community Notice will be on Mondays instead of Fridays until April 5th, 2024. We apologize for any inconvenience this may cause. Paper copies of the notice will be available for pick up at the Administration Office and the Elders Centre on Fridays.

RECREATION REIMBURSEMENT PROGRAM:

We are delighted to announce the launch of our Recreation Reimbursement Program, a new initiative designed to support and encourage your participation in recreation, sport and wellness activities. This program is part of our commitment to enhancing the well-being of our community members.

Find more information on our website ([TsawwassenFirstNation.com](https://tsawwassenfirstnation.com)) under *Governance > Policies*. Scroll down to *'Members Benefits Policies'* and click *'Recreation Reimbursement Program Policy'*. If you're viewing this online, click the following link: <https://tinyurl.com/2yy6p88y>

TFN TEMPORARY BUSINESS STORAGE AND MEMBER PARKING

We are thrilled to announce a new initiative in response to the valuable feedback received from our community. As Tsawwassen Lands continue to develop and more Members choose to return and live on our lands, the demand for storage solutions has significantly increased. To meet this need, we are offering temporary business storage and vehicle parking spaces on TFN's Industrial Lands.

This initiative is a stepping stone towards establishing a permanent storage solution within our industrial lands. Your participation and feedback will be instrumental in shaping the future of this program, ensuring it best serves the needs of our community.

Here's What You Need to Know:

- **Interest List:** TFN will compile a list of interested members. **Please submit expression of interest by end of day Monday, March 25th.** Allocation will begin March 26th.
- **Sublease Agreement:** Members will need to enter into a sublease agreement with Aquilini Development.
- **Monthly Rate:** \$25 per parking stall or equivalent
- **Accessibility:** The site is conveniently accessible via TFN's haul road during business hours.
- **Responsibility:** Members are expected to maintain the site responsibly, ensuring no environmental harm. As such, we cannot accommodate aggregates, soils, or hazardous materials on site.
- **Compliance:** All activities must adhere to TFN laws and regulations, including the TFN Good Neighbour Regulation.

Interested? Get in touch with us at businessservices@tsawwassenfirstnation.com or call Elizabeth at 604-219-3683 to express your interest or for any inquiries. Please submit your interest by end of day Monday, March 25th. Allocation will begin March 26th.

15-Year Treaty Review Engagement | Tsawwassen First Nation

What We Heard

In April 2024, Tsawwassen First Nation will celebrate the 15-year anniversary of the Tsawwassen Treaty!

This milestone is the first opportunity to conduct a Periodic Review, as set out in Chapter 23 of the Treaty. To better understand how the Treaty can be improved, TFN staff conducted a variety of engagements with Tsawwassen Members and Tsawwassen Government staff from November 2023 – March 2024.

These items are subject to negotiation with Canada & BC and may not result in a Treaty amendment.

Further information on feedback is available upon request.

Contact: James Lascelle, Policy Analyst - jlascelle@tsawwassenfirstnation.com

Not seeing your comments? Your feedback is important and will inform other initiatives.

TFN will be conducting follow-up engagement to validate and inform how your input is to be used.

Re: Construction Notification: George Massey Tunnel Reversible Lane Control System Upgrade

Please be advised of upcoming traffic pattern changes to complete an upgrade to the George Massey Tunnel's reversible lane control system, now underway until the end of April. The work will require manually implementing counterflow lanes during peak travel periods for four weeks and one weekend of full overnight closures of the George Massey Tunnel and approaches.

Highway 99 is a key connection for communities on both sides of the Fraser River and a vital trade route. Improvements to the George Massey Tunnel's reversible lane control system are needed to help maintain capacity, reliability and safety for all travellers on Highway 99. The system upgrade involves installing new overhead lane control signals, cameras, swing gate controls and electrical connections to the Ministry's power infrastructure.

The upgrade work has been scheduled to minimize traffic disruption and delay as much as possible; however, delays can be expected. The anticipated schedule of construction activities includes:

Manual Counterflow – March 11 to April 4, 2024

- From March 11 to April 4 the existing lane control system will be taken offline. Overhead lane control lights will not be visible during this period.
- Work crews will be on-site to manually install the counterflow lanes during the a.m. and p.m. peaks.
- The manual counterflow will be in place from approximately 5:45 a.m. to 9:30 a.m. and 3 p.m. to 6:30 p.m. on weekdays (same as existing times).
- Trucks with flashing lights, message boards and lane control posts will be in place to guide traffic leading up to and within the tunnel.
- While traffic may slow during the changeover process, once the counterflow lanes are open, traffic flow will resume as normal.
- During non-counterflow times, two lanes will be open in each direction and transition lanes will be closed.

George Massey Tunnel Overnight Closures – April 4 to April 8, 2024

- To complete the transition to the new system, a weekend nighttime full closure of the tunnel and approaches will take place, tentatively scheduled for April 4 to April 8, 2024.
- Motorists will be encouraged to follow detour signs to use the Alex Fraser Bridge as an alternative route. A map of the proposed detour route is on the next page.
- The detour will be in place nightly until 5 a.m. Detour start times depend on the direction of travel, as shown in the detour map.
- During these hours, the George Massey Tunnel will be closed to all traffic, except for emergency vehicles and late-night busses.
- Measures will be in place to help reduce congestion and keep traffic moving as much as possible along the detour route, however, some delays can be expected.

NOTICE OF WORK

TOPOGRAPHIC SURVEY OF FALCON WAY

Dear Resident,

TFN has engaged Aplin & Martin Geomatics Land Surveying Ltd. to conduct a topographic survey of the following streets and property frontages as part of the Falcon Way Streetscape Design improvements:

1. Falcon Way between Tsawwassen Drive and 2500 block;
2. Falcon Court;
3. Pheasant Lane;
4. Heron Place.

Survey elevation data are critical for assessments of Sea-Level Rise and coastal flooding exposure, as well as ensuring that future roadworks will be aesthetically pleasing and integrate smoothly with existing properties. As part of the survey, Aplin & Martin survey crew will be walking around and taking survey shots of:

1. Ground elevations along the property line fronting roads listed above;
2. Driveway widths and elevations up to a building, garage location;
3. Fences;
4. Existing edge of pavement, curb, letdowns, sidewalks, painted lines;
5. Existing ditch information (i.e. top of bank, bottom of bank, headwalls, culverts, ditch centerline);
6. All trees and shrubbery along the project extents;
7. Utility poles, electrical kiosks, manholes, meter boxes, inspection chambers, hydrants;
8. Street furniture (i.e. benches, street signs, bus stops)

No significant disturbances to the residents' daily activities are expected.

The survey is estimated to begin on Monday, March 18 and be completed by Thursday, April 19, 2024. The work most likely will start from the intersection of Tsawwassen Drive and Falcon Way towards the northeast of Falcon Way, Aplin & Martin surveying crew will adhere to TFN hours of work and noise regulations.

NOTICE OF WORK

Watermain Flushing

Tsawwassen First Nation

February 19 to April 5, 2024

Dear Residents,

The annual water distribution system flushing program on Tsawwassen First Nation Lands will be conducted from February 19th through to April 5th. **This work will take place Monday to Friday between 7:30 AM and 3:30 PM.** Watermain flushing helps to maintain good water quality by clearing sediments that accumulate over time in the water distribution system.

The flushing process may temporarily cause low water pressure and/or water discoloration. If discoloration or sediment is noticed after flushing, please run the cold water tap at your bathtub for several minutes until the water clears. Any discoloration you may see does NOT pose a health hazard and this water is safe to drink. If the condition persists, please contact the TFN Lands Department at (604) 948-0694.

Thank you for your cooperation.

TSAWWASSEN FIRST NATION

CALLING ALL TSAWWASSEN FIRST NATION ARTISTS

Tsawwassen First Nation (TFN) endeavors to support and encourage its artists. We are proud of our artists and want to showcase TFN artwork.

We are seeking all types of art from TFN Member Artists. All art will be a donation or a gift from the Tsawwassen First Nation Chief and Council.

We are interested in art from both established and emerging TFN Member Artists. The primary concern of TFN is that the artwork has significance and meaning for the Tsawwassen people. This is an excellent opportunity for a TFN Artist to showcase their work and gain exposure.

The art should have a description and artist biography to accompany the art piece, submitted by the artist.

If you are interested in TFN purchasing your artwork, please make an appointment with Maryanne Adams or Andrea Jacobs at 604-943-2112 for your artwork to be considered.
