Dear TFN members and residents:

This is a reminder that Stage 1 watering restrictions will be in effect from May 1 until October 15, 2024 as outlined in *Metro Vancouver's Drinking Water Conservation Plan*.

<https://metrovancover.org/services/water/Documents/drinking-water-conservation-plan.pdf>

Stage 1 comes into effect automatically each year to manage the use of drinking water during periods of high demand, water shortages, and emergencies.

Reducing lawn watering remains the most effective way to ensure we are using our drinking water wisely during the summer months when demand is highest and rainfall is lowest. One morning per week provides adequate watering time to maintain a healthy lawn and achieve further water use reductions. Watering trees, shrubs and flowers is permitted any day of the week.

Successful conservation across the region will help us to continue to deliver drinking water to the increasing number of people who call Metro Vancouver home. Additionally, sustainable lawn care and landscaping practices can help residents prepare for changing weather patterns, to continue to enjoy their green spaces.

15-Year Treaty Review Engagement | Tsawwassen First Nation

What We Heard

In April 2024, Tsawwassen First Nation will celebrate the 15-year anniversary of the Tsawwassen Treaty!

This milestone is the first opportunity to conduct a Periodic Review, as set out in Chapter 23 of the Treaty. To better understand how the Treaty can be improved, TFN staff conducted a variety of engagements with Tsawwassen Members and Tsawwassen Government staff from November 2023 – March 2024.

These items are subject to negotiation with Canada & BC and may not result in a Treaty amendment.

Further information on feedback is available upon request.

Contact: James Lascelle, Policy Analyst - jlascelle@tsawwassenfirstnation.com

Not seeing your comments? Your feedback is important and will inform other initiatives.

TFN will be conducting follow-up engagement to validate and inform how your input is to be used.
