PART 1 - ADMINISTRATION

Application

- 1.1 This Regulation applies to all land, buildings, and structures and the surface of water within the boundaries of Tsawwassen First Nation as defined by the Zoning Map contained in Schedule 'B', which forms part of this Regulation. It includes all Tsawwassen Fee Simple Interest lands, community lands held by Tsawwassen First Nation, and all other interests held on Tsawwassen First Nation lands.

Compliance

- 1.2 Land, including the surface of water, shall not be used and buildings and structures shall not be constructed, altered, located or used except as specifically permitted in this Regulation.

Severability

- 1.3 If any section, subsection, clause, sentence or phrase of this Regulation is for any reason held to be invalid by the decision of any court of competent jurisdiction, the invalid portion shall be severed and the decision that it is invalid shall not affect the validity of the remaining portions of this Regulation.

Applicable Regulations

- 1.4 Where this bylaw sets out two or more regulations that could apply to a situation, the most stringent regulation shall apply.

PART 2 - ENFORCEMENT

Inspection

- 2.1 Any duly appointed member of the Tsawwassen First Nation administration is authorized to enter at all reasonable times, on any property that is subject to this Zoning Regulation to ascertain if the provisions of this Regulation are being complied with. It shall be unlawful for any person to prevent or obstruct or attempt to prevent or obstruct any such Officials from carrying out any of their official duties under this Regulation.

Contravention, Penalty and Enforcement

- 2.2 Any person who contravenes, violates or permits any act or thing to be done in contravention of, or neglects or refrains from doing anything required to be done pursuant to the provisions of this regulation, commits a contravention and shall, in addition to any other provisions of this regulation, be liable:
- (a) to a penalty as set out in the *Tsawwassen First Nation Ticket Regulation, 2013*; or
 - (b) if no penalty is set out for the contravention in the *Tsawwassen First Nation Ticket Regulation, 2013*, then to a fine not exceeding \$2,000.
- 2.3 Every day that a contravention continues under this regulation constitutes a separate and distinct contravention.
- 2.4 Contraventions of this regulation are designated for enforcement under the *Land Use Planning and Development Act* (Tsawwassen) or the *Laws Enforcement Act* (Tsawwassen).
- 2.5 In addition to the designated Enforcement Officer appointed by Executive Council pursuant to section 3 (1) (a) of the *Laws Enforcement Act*, the Director of Lands is appointed as an enforcement officer for the purposes of this regulation.

[Amended by Order number O.070-2013]

- (g) Nuclear industries;
- (h) Petro-chemical refineries.

[Amended by Order number O.027-2012]

Use of Land in the Agricultural Land Reserve (ALR)

- 4.5 For those uses that this Zoning Regulation permits within the Agricultural Land Reserve, the use of land must be in accordance with the provisions of the Provincial Agricultural Land Reserve Use, Subdivision and Procedure Regulation.

Single Family Residential Development on TFSI Lands

- 4.6 Notwithstanding the permitted uses and regulations, on Tsawwassen Fee Simple Interest (TFSI) Lands, a TFN Member is permitted to construct one single family residential dwelling for use by them or their family members, regardless of the zone identified in Schedule B of this regulation. In such cases, the dwelling must be located in conformity with the provisions of the RS1 Zone.

Number of Principal Buildings on a Parcel

- 4.7 Not more than one principal building shall be permitted on any parcel in an RS (Single Family Residential) zone.

Height Regulation Exemptions

- 4.8 The following structures are exempt from the height limitations specified in each zone of this Regulation:
- (a) flag pole;
 - (b) public monument or sculpture;
 - (c) spire, steeple, belfry;
 - (d) chimney;
 - (e) transmission tower or antenna;
 - (f) waterslides;
 - (g) industrial cranes.

[Amended by Order number O.001-2014]

- 4.9 No exempted structure, other than transmission towers, shall:
- (a) exceed 20 m in height;
 - (b) cover more than 20% of the parcel; or,
 - (c) if located on a building, cover more than 10% of the roof area of the building.

Visual Clearance at Intersections

- 4.9b (1) On an Exterior Parcel, no part of any building, structure or fence greater than 1.0 metre in height shall project into the triangular area created by a line joining two points:
- (a) 6.0 metres from the projected parcel lines abutting a local street and/or lane; and
 - (b) 7.5 metres from the projected parcel lines abutting an arterial and/or collector street.

- (2) No hedge, shrub, tree or other vegetative growth higher than 1.0 metre shall be allowed within the triangle described in subsection (1).

[Amended by Order number O.027-2012]

[Amended by Order number O.009-2022]

Setback Exceptions

4.10 No structure other than the following shall be located in any setback required by this Zoning Regulation:

- (a) Gutters, cornices, sills, bay windows, or chimneys may intrude no more than 0.6 m into the required setback;
- (b) Eaves, sunlight control projections and canopies, may project no more than:
 - (i) 1.2 m into a required front or rear setback; and,
 - (ii) 0.6 m into a required side setback
- (c) Bay windows, balconies, uncovered decks, or open porches, provided, in total, that they are limited to no more than 50% of the wall length of that particular side of the structure and provided they extend no more than:
 - (i) 1.2 m into a required front or rear setback; and,
 - (ii) 0.6 m into a required side setback
- (d) Fence
- (e) Arbors, trellises, fish ponds, ornaments, flag poles or similar landscape features, provided they are not closer than 1 m from any parcel line;
- (f) An uncovered swimming pool, provided that such pool shall not be constructed within any required front setback nor nearer than 1.0 m to any parcel line;
- (g) Free-standing lighting poles, flag poles, warning devices, antennas, masts, clothing lines, signs, and sign structures, except as otherwise limited in this or other regulations;
- (h) Sidewalks, patios, and hard surfacing of the ground.

- 4.11 Notwithstanding these setback exceptions, no building or structure or portion thereof may project into or over a registered statutory right-of-way.

Setbacks from Waterbodies and Watercourses

- 4.12 No structure shall be constructed or located within:
- (a) 15 m of any structure for flood protection or seepage control, or any dyke; or,
 - (b) 15 m of the high water mark, for any parcels fronting on Georgia Strait; or,
 - (c) 30 m of the natural boundary of any fish bearing watercourse; or,
 - (d) 15 m of the natural boundary of any non-fish bearing watercourse.
- 4.13 These setbacks may be varied by resolution of TFN Executive Council through an environmental assessment completed by a qualified professional.

Parcel Coverage Exceptions

- 4.14 The following are not included as part of the coverage of a parcel:
- (a) Gutters, cornices, sills, bay windows, chimneys, eaves, or other similar building features, where they do not touch the ground;
 - (b) Exterior open stairs;
 - (c) Parking structures where 60% or more of the roof deck is soft landscaping;
 - (d) Uncovered balconies;
 - (e) Decks under 0.6 m in height;
 - (f) Sidewalks, patios, and hard surfacing of the ground;
 - (g) Driveways, aisles, and parking spaces.

[Amended by Order number O.104-2015]

Single Family Dwelling Use Vehicle Ingress and Egress

- 4.14b The maximum impervious width of a vehicle driveway shall be no greater than 6.5m.

[Amended by Order number O.027-2012]

Accessory Buildings

- 4.15 Accessory buildings are permitted in all zones except for the FS1 zone.
- 4.16 No accessory building or structure shall be permitted on any parcel unless the principal building or structure is established on the parcel.
- 4.17 No person shall attach an accessory building to a principal building unless the accessory building meets the regulations for the principal building.
- 4.18 No accessory building or structure is permitted in a required front setback or exterior side setback.
- 4.19 An accessory building or structure may be located within a required rear setback or side setback, but if it exceeds 2 m in height, it shall have a minimum 1 m setback from a side or rear parcel line.
- 4.20 An accessory building must be set back a minimum of 1 m from another accessory building or principal dwelling.
- 4.21 On a parcel in an RS (Single Family Residential) or RM (Multi-Family Residential) zone, no more than three accessory buildings or structures are permitted.

Wrecked Vehicles and Construction Materials

- 4.22 Outdoor storage of more than two wrecked or disused vehicles or construction materials is not permitted except in Industrial (I) zones.

Home-Based Business

- 4.23 Where expressly permitted within a Zone, a home-based business shall comply with the following regulations:
- (a) A home-based business is an accessory use that shall only be conducted within the principal residential building (and accessory home where permitted) and within up to one accessory building.
 - (b) On a parcel, the combined floor area of all home-based business uses shall not exceed the lesser of 90 m² or 40% of the gross floor area of the principal building.
 - (c) A home-based business shall not be operated in a manner that routinely generates more than 3 client visits at any one time. Notwithstanding this, a home-based business daycare may provide care for no more than 8 persons.
 - (d) A home-based business is permitted to have one non-illuminated sign to a maximum of 0.3 m² in area.
 - (e) No exterior evidence of the home-based business shall be visible from outside the parcel on which the home-based business is located, except for a permitted sign.
 - (f) Unless authorized by TFN Executive Council, no retail or wholesale sales shall be permitted except for:
 - (i) Products incidental to the service being provided;
 - (ii) Mail order sales;
 - (iii) Direct distributions where customers do not enter the premises to inspect, purchase or pick up goods;
 - (iv) Products produced on the site.
 - (g) Unless authorized by TFN Executive Council, a home-based business may not include:
 - (i) Stables, kennels or animal breeding operations;
 - (ii) Restaurants;
 - (iii) Parking or storage of commercial, industrial or construction equipment and material;
 - (iv) Vehicle or equipment repair and maintenance;
 - (v) Welding or machine shops; or
 - (vi) Uses that produce toxic or noxious matter, noise, vibrations, smoke, dust, odour, litter, heat, glare, radiation, or electrical interference other than that normally associated with a dwelling.
 - (h) Home-based businesses that serve customers on-site shall have at least one off-street parking space available for customer use.

Bed and Breakfast

- 4.24 Where expressly permitted within a Zone, a bed and breakfast shall comply with the following regulations:
- (a) A bed and breakfast shall be entirely contained within the dwelling;
 - (b) A bed and breakfast shall have at least one additional parking space for each let room, in addition to those required for the principal dwelling;
 - (c) A bed and breakfast is permitted to have one non-illuminated sign to a maximum of 0.3 m² in area.

- (d) No more than 4 guest rooms are permitted in a bed and breakfast in the following zones: RS1 — Single Family Residential (900m²), RS2 — Single Family Residential (450m²), and EI — Enterprise.
- (e) No more than 2 guest rooms are permitted in a bed and breakfast in the following zones: SF1 — Single Family With Lane (308m²).

[Amended by Order number O.055-2016]

Secondary Suites

- 4.25 Where expressly permitted within a Zone, a secondary suite shall comply with the following regulations:
- (a) The secondary suite shall have its own separate cooking, sleeping, and bathing facilities.
 - (b) The secondary suite shall have direct access to the outside without passing through any part of the principal dwelling unit.
 - (c) The secondary suite shall be located within a single detached house or accessory building.
 - (d) No more than one secondary suite is permitted per parcel.
 - (e) The secondary suite shall not exceed the lesser of 90 m² or 40% of the gross floor area of the principal building.
 - (f) A secondary suite is not permitted in conjunction with a bed and breakfast use, and a bed and breakfast is not permitted within a secondary suite.
 - (g) A home-based business is not permitted within a secondary suite.
 - (h) One parking space per secondary suite is required in addition to those required for the principal dwelling.

Subdivision

- 4.26 (1) For the purpose of this section, subdivision shall include parcel consolidation.
- (2) Unless otherwise provided hereinafter, any parcel created under the "Tsawwassen First Nation Land Use Planning and Development Act, Subdivision and Development Regulation" shall be in accordance with the parcel standards prescribed for the Zone in which the subdivision is located.
- (3) No parcel created by a subdivision shall have a frontage less than 1/10 of its total perimeter or have a parcel width less than the minimum requirement prescribed for the Zone in which the subdivision is located, unless approved by the Approving Officer and in no cases shall a frontage be less than 4.5 m or shall a relaxation of the parcel width requirement result in a frontage less than 4.5 m.
- (4) For the purpose of subdivision, the width of a parcel measured between 2 side parcel lines on a straight line, shall be determined as follows:
- (a) For a rectangular parcel, the width of a parcel shall be determined at the minimum principal building setback from the front parcel line using a straight line parallel to the frontage of the parcel;
 - (b) For a parcel of an irregular shape, the width shall be determined by a straight line 7.5 m from and parallel to the frontage of the parcel. However, where the frontage intersects any of the side parcel lines at an angle less than 60 degrees, the width shall be determined by a straight line at least 7.5 m from any point of the frontage and equiangular to both side parcel lines;
 - (c) Where the frontage of a parcel is not a straight line, all references of frontage in Sub-section (4)(b) above shall mean a straight line connecting the 2 points at which the frontage intersects with the side parcel lines, provided, however, that the width shall not be less than 7.5 m from any point of the frontage; and
 - (d) In the case of a panhandle parcel and for the purpose of determining the parcel width, the panhandle portion shall be disregarded, resulting in a rectangle or a polygon. The shortest parcel

line contiguous with the panhandle shall be considered as the frontage for the purpose of determining the parcel width and the provisions set forth in (a) and (b) above shall apply.

(5) For the purpose of subdivision, the depth of a parcel shall be determined by a straight line perpendicular to the width of the said parcel and having the least distance between the front and the furthest opposing parcel line.

(6) Where the parcel to be created is in such an irregular shape that the width and/or depth of the parcel cannot be determined as hereinabove provided, the said width and/or depth of the parcel shall be determined by the Approving Officer.

(7) Where the strict application of the width requirement would result in a parcel substantially larger than the minimum area required in a particular Zone, the Approving Officer may reduce this requirement by not more than 10%.

(8) Where the land being subdivided is such that the last parcel to be created does not have the required minimum parcel area, the subdivision may be approved provided that the area of this last parcel is not less than 90% of the minimum parcel area requirement prescribed in the Zone.

(9) Where the land being proposed for parcel consolidation would result in a parcel not meeting the minimum parcel dimension requirements, the Approving Officer may approve such parcel consolidation provided that the resulting parcel dimensions which are at variance from the minimum standards are greater than the existing parcel dimensions before parcel consolidation.

[Amended by Order number O.027-2012]

Screening for Solid Waste Collection

4.27 (1) In all multifamily, commercial and industrial zones, enclosures are required for trash, non- organic recycling and organic recycling, with enclosures to be walled and screened from public view. Screening walls shall not be located within a *Landscape Buffer*. Screening walls shall be no more than 3.1 m in height.

[Amended by Order number O.104-2015]

Floor Space Ratio Exclusion

4.28 (1) The following floor area shall be excluded in the calculation of floor space ratio (FSR) permitted under the regulations of a zone:

- (a) The total floor area of any parking structure located within a residential building other than a single-family dwelling.

[Amended by Order number O.009-2022]

[Amended by Order number O.062-2021]

OVERLAY 1 – TFN COMMUNITY AREA OVERLAY

Purpose

The purpose of this overlay zone is to identify the TFN Community Area boundary on the zoning map and allow flexible site regulation requirements for the parcels within the overlay zone.

Permitted Uses

Those uses listed as permitted uses in the underlying zone.

Accessory Uses

Those uses listed as accessory uses in the underlying zone.

Regulations

As regulated in the underlying zone, unless otherwise deemed reasonable and approved by the Director of Lands or the Executive Council. The Director of Lands at their discretion may bring any application meeting or not meeting the underlying zone regulations for Executive Council consideration and decision.

[Amended by Order number O.013-2022]

PART 6 – OFF-STREET PARKING REGULATIONS

General Rules

- 6.1 (1) All parking spaces, bicycle parking spaces, visitor parking spaces, handicapped parking spaces and *Loading Spaces* required by this zoning regulation must be located on the same *Parcel* as the permitted use, unless otherwise provided in this Part.
- (2) If a use is not listed within this Part of the zoning regulation, the number of parking spaces, bicycle parking spaces, visitor parking spaces, handicapped parking spaces or *Loading Spaces* shall be calculated on the basis of a similar use as determined by the Director of Lands.
- (3) No overnight vehicle parking is permitted on a Parcel with permitted Commercial and Enterprise uses as described in section 6.2.
- (4) Required off-street parking facilities for two or more Parcels may be satisfied by shared parking facilities used jointly, if the Director of Lands is satisfied with the opinion of a qualified professional traffic engineer that confirms the parking supply will satisfy demand for spaces, and provided that such right of joint use is registered as a Restrictive Covenant in favour of Tsawwassen First Nation.
- (5) No off-street parking spaces shall be permitted to encroach on a *Highway*.
- (6) Where the minimum number of parking spaces, visitor parking spaces, bicycle parking spaces or *Loading Spaces* for a permitted use is not specified, the Director of Lands must determine the minimum number of spaces for that permitted use in consideration of the minimum number of spaces for other uses with similar characteristics and other relevant information.
- (7) When the calculation of the minimum number of required parking spaces, bicycle parking spaces, visitor parking spaces, handicapped parking spaces or *Loading Spaces* results in a fractional number of spaces, the next higher whole number will be the minimum requirement.
- (8) For the purposes of calculating off-street parking requirements, where gross leasable floor space is used, it shall be measured according to industry standards such as produced by the Building and Owners Manager Association or equivalent standard.

[Amended by Order number O.027-2012]

Standards for Motor Vehicle Parking Spaces

6.3 (1) Unless otherwise specified, the minimum width and depth of parking spaces are as follows:

Parking angle (degrees)	Aisle width (metres)	Space depth perpendicular to aisle (metres)	Space width parallel to aisle (metres)	
			Dwelling Units	Other Uses
90	7.00	5.50	2.50	2.60
75	6.12	5.64	2.59	2.69
60	4.82	5.49	2.89	3.00
45	4.00	5.00	3.54	3.68

(2) The minimum width of a parking space when it abuts a physical barrier, is:

- (a) 3.1 m when a physical barrier abuts both sides; and
- (b) 2.85 m when a physical barrier abuts only one side.

(3) The angle of a parking space must be 90 degrees or must be between 75 degrees and 45 degrees. Minimum required parking space dimensions between 45 degrees and 75 degrees must be calculated using a straight line interpolation between dimensions.

(4) The minimum depth of a parking space is 5.9 m where it is required for:

- (a) Apartment, Bed and Breakfast, Duplex, Single Family Dwelling, Townhouse.

(5) The minimum width of a parking space for multi-residential development provided for the exclusive use of a dwelling unit is 2.6 m where:

- (a) the space is one of two or more parking spaces that are provided in a *Garage*;
- (b) the parking spaces in the *Garage* are for the sole use of the occupants of the dwelling unit; and
- (c) the parking spaces are only counted towards fulfilling the minimum parking space requirements for that dwelling unit.

(6) (a) Any unenclosed and uncovered parking spaces accessed by a lane must be constructed of permeable materials.

[Amended by Order number O.027-2012]

[Amended by Order number O.055-2016]

Handicapped Parking Space Regulations

6.4 (1) Handicapped parking spaces shall have a minimum width of 3.7m and a minimum depth of 5.5m, and shall be:

- (a) Located close to an accessible building entrance;
- (b) Marked with a clearly visible sign identifying the spaces for use by disabled persons only;
- (c) Marked on the parking surface with the international symbol for wheelchair accessibility.

(2) Parcels that contain between 11 and 1,000 parking spaces shall have a minimum of 2% of the required parking spaces as Handicapped parking spaces. Parcels that contain more than 1,000 parking spaces shall have a minimum of 20 Handicapped parking spaces plus 1 Handicapped parking space for each additional 100 parking spaces.

[Amended by Order number O.027-2012]

Car Share Vehicle Parking Space Requirements

6.5 (1) One-half of one percent (0.5%) of parking spaces shall be designated for sole use by car-share vehicles.

(2) Car-share vehicle parking shall be clearly marked with visible signage identifying the spaces for a vehicle car-share usage.

(3) Car-share vehicle parking shall be located adjacent to Handicapped parking spaces.

[Amended by Order number O.027-2012]

Electrified Parking Space Requirements

6.6 (1) If a commercial or retail use is required to have more than 100 parking spaces, two percent (2%) of the parking spaces shall be installed with conduit and roughed-in outlets for 110 V, 220 V and 440 V options, for future installation of wiring and outlets suitable for use as electric vehicle recharging stations

(2) For all Multiple Family Housing, 50% of all required parking spaces, including visitor parking, shall be provided with:

(a) a minimum Level 2 charging station for electric vehicles, or

(b) conduit, wiring, electrical panel capacity and associated equipment physical space necessary for future installation of a minimum Level 2 charging station for electric vehicles.

[Amended by Order number O.027-2012]

[Amended by Order number O.009-2022]

Bicycle Parking Space Requirements

6.7 All bicycle racks shall be approved by the CSA, (or similar approving agency) and/or approved for use on public streets. "Secure theft-resistant anchoring" means that the rack cannot be dislodged by the use of a wrench, screwdriver, crow-bar, or bolt cutter; rather, it should require either extreme force (e.g. sledgehammer or acetylene torch) or custom-designed tool to dislodge. Methods which incorporate recessed bolt heads and/or ground-in anchoring are appropriate. Bicycles shall be supported above the centre of gravity (approximately 0.5m above the floor for horizontal parking) so that they cannot be knocked down easily when secured.

[Amended by Order number O.027-2012]

Loading Space Manoeuvring Aisle

- 6.15 (1) For each *Class B Loading Space* the manoeuvring aisle must be at least 14.0 m wide, except that, for other than right angle loading or if the Director of Lands has decreased the length of the space under section 6.14.
- (2) *Loading Space* and manoeuvring aisles shall be designed to avoid vehicles from backing onto a *Highway*.

[Amended by Order number O.027-2012]

Internal Access to Loading Spaces

- 6.16 *Loading Spaces* shall be located so that each individual occupancy use has access within a development to a space.

[Amended by Order number O.027-2012]

Multi-Use Developments

- 6.17 (1) Where two or more uses occur on a Parcel, the total *Loading Space* requirements shall be the sum of the requirements for each individual use. The minimum number of *Loading Spaces* required for each use are specified in section 6.13.
- (2) Where a permitted use has direct access to a *Class B Loading Space*, it may be counted towards the required number of *Class A Loading Spaces*.

[Amended by Order number O.027-2012]

Setback from Site Boundaries

- 6.18 Except for points of access, all *Loading Spaces* and associated manoeuvring aisles not located within a structure shall be uniformly set back from the site boundaries as follows:
- (a) from the front boundary of the site, a distance equal to the required front parcel setback for the zone in which it is located;

- (b) from a flanking street a distance equal to the required side parcel setback on such flanking street for the zone in which it is located.

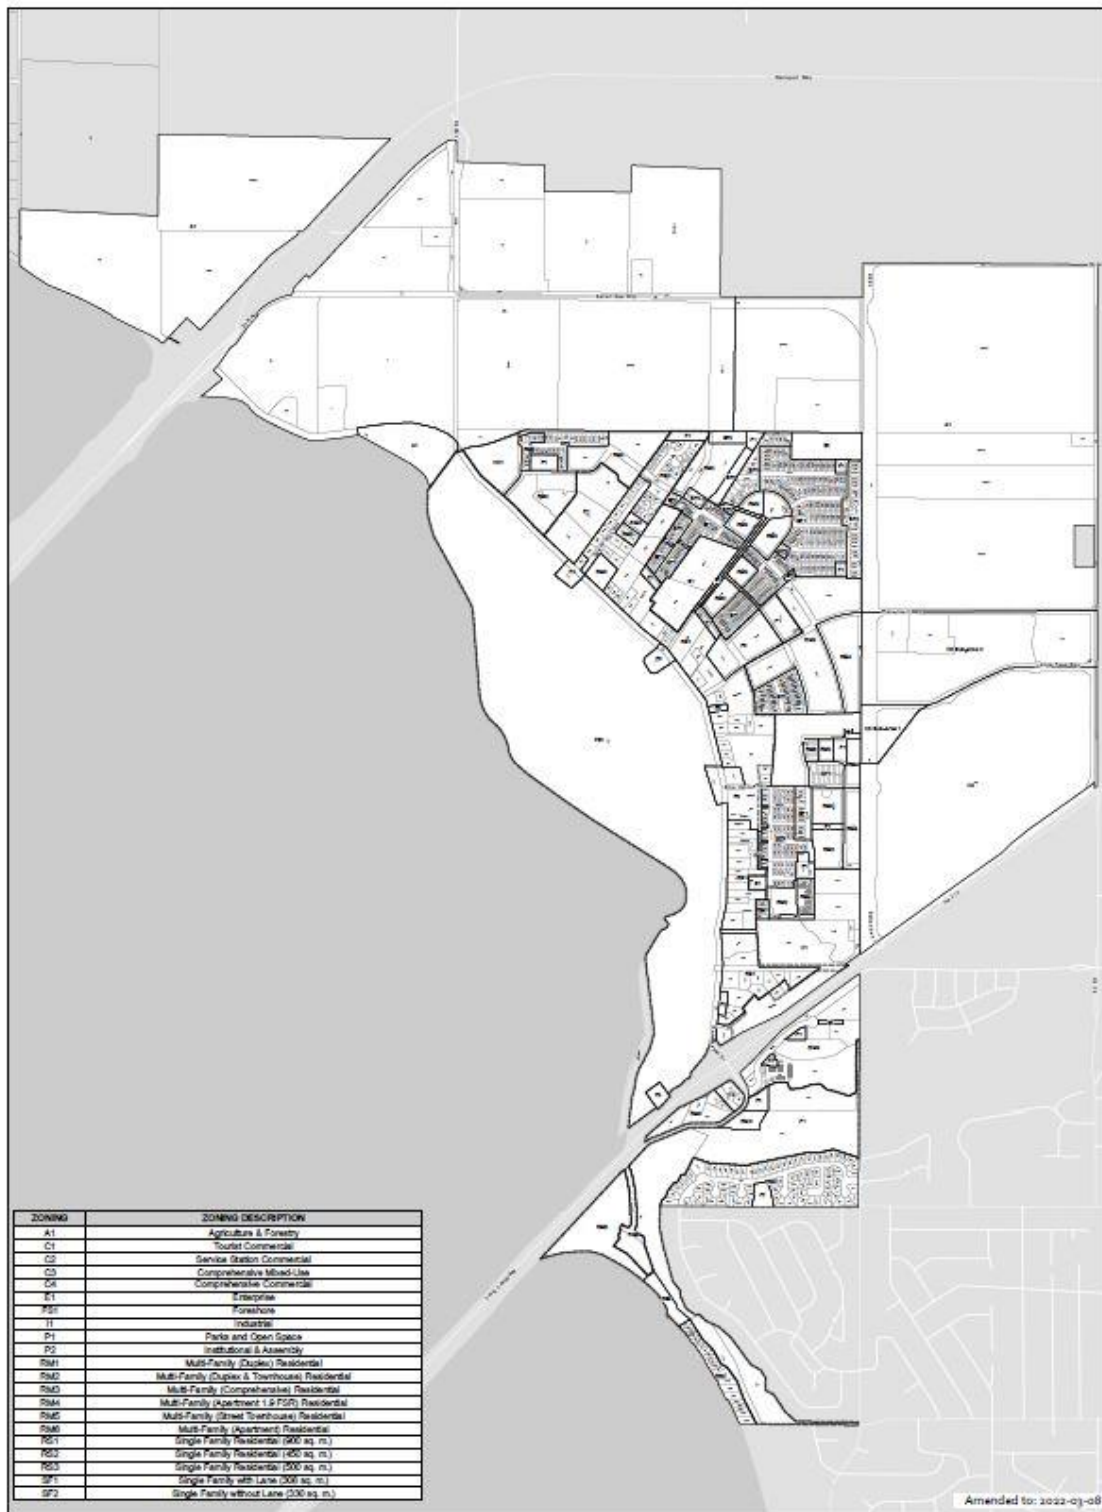

[Amended by Order number O.027-2012]

Setback from residential Dwelling Units

- 6.19 All off-street *Loading Spaces* shall be located a minimum of 4.6 m from any window, vent or wall opening providing access to a residential dwelling unit in any building.
