Why do I want to run for Legislator?

I believe this will be an excellent opportunity to be a voice for the people of TFN. I understand this is an integral part of a process to be a self-governing body and realize how traditional and Cultural protocols strengthens us of who we are. As a legislator, I know I can work as a great team player but, also confident to have valuable input on important issues. I am committed to working towards a stronger, healthier, and more informed community for the members of Tsawwassen First Nation.
