

FRASER SALISH REGION
First Nations Health Authority

Vaccination Second Dose Clinics

The Fraser Salish Team is pleased to share that the next phase of our vaccination plan will begin on May 31st. We will continue to devote our energy to the prompt and effective delivery of vaccinations for your community.

Sunday, June 6, 2021

Time: 10:00AM

Location: Tsawwassen First
Nation

**Please ensure you bring your
vaccination card.**

If you no longer have your card,
your 1st dose will require
verification by your community
clinic contact.

Fraser Health has advised that youth aged 13– 17 will be eligible to receive their vaccinations with informed consent. Youth aged 12 requires parental consent.

It is important to note that youth must be at minimum 12 years of age on the date of their clinic. This ensures that the delivery of the vaccine aligns with the parameters of the clinical trials conducted for that vaccine.
