

NOTICE OF WORK

Attention: Owners and Residents

Re: Watermain Flushing – October 15th to December 15th, 2026

Dear Owners and Residents,

The Fall water distribution system flushing program on Tsawwassen First Nation Lands will be conducted from October 15th through to December 15th, 2026. **This work will take place Monday to Friday between 7:30 AM and 3:30 PM.** Watermain flushing helps to maintain good water quality by clearing sediments that accumulate over time in the water distribution system.

The flushing process may temporarily cause low water pressure and/or water discolouration. If discolouration or sediment is noticed after flushing, please run the cold water tap at your bathtub for several minutes until the water clears. Any discolouration you may see does NOT pose a health hazard and this water is safe to drink. If the condition persists, please contact the Utilities Department at (604) 952-6004 or email utilities@tsawwassenfirstnation.com.

REMINDER

Here is a friendly reminder of what to keep out of your drains (and toilets) to avoid costly repairs in your home and/or TFN's sewer system:

- Grease, oil and animal fats
- Baby wipes, cosmetic wipes, paper towel, or tissues (Kleenex)
- Q-Tips, cotton pads, or band-aids
- All menstrual products, condoms, and diapers
- Dental floss and hair
- Cigarette butts
- Kitty litter
- Gum
- Medications

The TFN Utilities Team thanks you for your time and consideration regarding this reminder.
